

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for index.html

Checker Input

Show ☐ source ☒ outline ☒ image report

Check by no file selected

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Document checking completed. No errors or warnings to show.

Image report

The `img` elements of the page are shown below categorized by their type of textual alternative. Please review that the images in each group match that group’s definition.

Images with textual alternative

The following images have textual alternatives. Please review that the textual alternatives make sense considering the purpose of the image in the context of the page and that phrases like “Image of …” are avoided. Note that iconic images that are redundant with text next to them or purely decorative should have `alt=""` instead.

| Image | Textual alternative | Location |
|-----------------------|---------------------|---|
| <i>Not resolvable</i> | logo | From line 21, column 17; to line 21, column 67 |
| <i>Not resolvable</i> | profilePic | From line 29, column 25; to line 29, column 106 |
| <i>Not resolvable</i> | rotunda | From line 55, column 17; to line 55, column 85 |

Outline

- <h1> [missing]
- <h2> Lost & Found at UVA
- <h2> About Lost & Found
- <h1> Lost & Found
